BUILDING A COMMUNITY OF RESEARCHERS: CHILDREN AT THE HEART OF RESEARCH

PACIFIC EARLY CHILDHOOD EDUCATION RESEARCH ASSOCIATION

(PECERA) is an organisation dedicated to disseminating and supporting research in early childhood education within the Pacific area. The primary objectives for which the Association was established are:

- To provide an academic forum in the Pacific region for the development and dissemination of high quality research in early childhood education.
- To facilitate cooperation and collaboration among researchers in the Pacific area working in the field of early childhood education.
- To promote links between research and practice in the field of early childhood education.
- To raise the visibility and status of research in early childhood education in the Pacific region.
- To facilitate the exchange of information and views on early childhood education, to collect and disseminate information pertaining to early childhood education and to develop skills and techniques relating to early childhood education.
- To promote research, studies, surveys, investigations and discussions of any nature for early childhood education, and to encourage and aid in the publication and public dissemination of results of any such research.

Conference participants will be from countries within the Pacific area.

ABOUT SINGAPORE

Located in Southeast Asia, **Singapore** has a land area of about 710 square kilometres, making her one of the smallest countries in the world and the smallest in the region – hence the moniker “The Little Red Dot”. Although small in size, Singapore commands an enormous presence in the world today with its free trade economy and highly efficient workforce. Also, her strategic location in the region has enabled her to become a central sea port along major shipping routes.

Brimming with a harmonious blend of culture, cuisine, arts and architecture, Singapore is a dynamic city that's rich in contrast and colour. Being a multi-racial society, Singapore is as diverse as it is cohesive. Beyond the history, culture, people, shopping and food, there are many more facets to Singapore's thriving cityscape for you to discover.
